

Happy Trails Bill!

As many of you all know by now Bill Mangus is retiring from Usher Transport, Inc. His last day will be December 17, 2010, his 66th birthday. Bill has been with Usher for 14 years. He dedicated himself to his job and others. He took phone calls in the middle of the night/during lunch/dinner/all hours, he was at our beckon call. He has made a lasting impression on all of us here at Usher. Bill has put an untold amount of effort into the Maintenance Department. He has pushed to get it whipped into shape and recently made sure that the CSA 2010 standards were foremost on drivers and mechanics minds.

Several people will say that he is argumentative, a bit confrontational at times, and hard to get along with. Just depends on who you are. He knows when he is right, argues until the point is made, and will confront a problem head on. Of course in his retirement, he leaves his office to Keith Judd. Bill will be missed when he leaves us, but he'll be starting a new chapter in his life - RETIREMENT. Here's wishing him good luck on the retirement! May he find more time to visit with family, friends, and not to forget about the family he has here at Usher Transport.

Best of luck Bill, from all of us at Usher Transport, Inc.
